

Resourced Provision

Worsbrough Common Primary School hosts one of the 3 Primary Resourced Provisions (RP's) for children with Communication and Interaction difficulties. The RP has the capacity for 10 children (all places currently full) and focuses primarily on children with speech and language needs. There is a specialist communication and interaction teacher and HLTA on site who are employed by Integrated Inclusion Services. As well as offering support to the children who access the RP, staff also provide help and guidance to class teachers and ensure that the whole school is accessible to children with this particular SEND. The Lead teacher is part of the leadership team which allows any issues that arise to be discussed and looked at at a senior level.

The RP offers 1:1 support for learners e.g. pre and post teaching, interventions as outlined above as well as small group focused teaching for literacy and numeracy which embeds colour coding, Elklan strategies and multisensory approaches to learning in a small stepped, repetitive approach if required. The RP may also offer reversed integration, if a child is struggling to access their mainstream class then they may be able to access the RP for more specialist teaching, this will be discussed during pupil progress meetings.

The lead teacher will also serve as the peripatetic (visiting) teacher for pupils with SEND who have been referred to the communication and interaction team for additional support.
