

Staff training

All staff including LSA's have received training towards becoming a communication friendly school this has included on-going Makaton training, communicate in print/widgets workshops and colour coding. Teams of staff involved in working with a child with specific SEND will receive appropriate training for example staff are currently receiving PEC's training in order to support children with Communication difficulties.

All staff have also received metacognition training delivered by an educational psychologist.

Other examples of staff development can be seen on the schools teacher learning blog.
